biofuel
PROGRAMME

Edinburgh Napier
UNIVERSITY

EUROPE & SCOTLAND
European Regional Development Fund
Investing in your Future

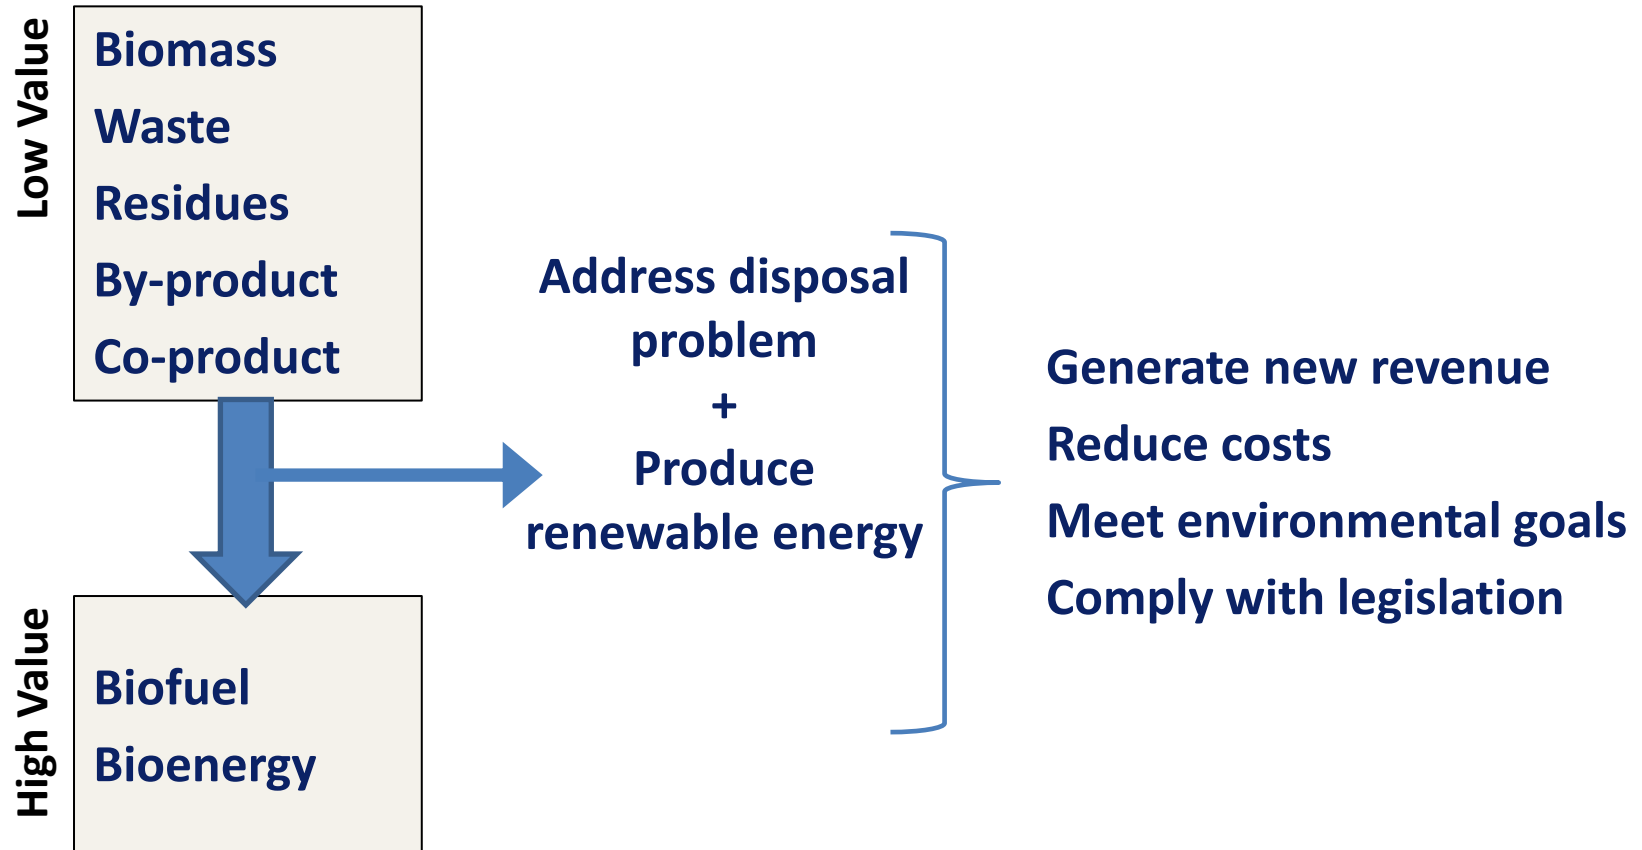

Industry

Convert residues into biofuel

Creating **bio-energy** & **sustainable biofuels** from low value **organic waste** or **by-products**

How can we support your business?

- Analysis of waste streams and identification of potential commercial opportunities
- Identify the economic and environmental benefits
- Determine the most appropriate biofuel/bioenergy technology for individual waste streams
- Technical and commercial feasibility studies
- Tailored advice on current legislation around biofuels and energy from waste

How to engage with the programme

- Contact our **Business Development Manager** to access free one-to-one advice
- Access to **Biofuel Development Fund** (£3-£30K)
- Attend our **workshops**, conferences and meetings with our staff
- Utilise our **network** of contacts to develop renewable energy solutions
